Yes, that works, thank you! I've made a space in the table for Grand.

I'll get Travis to add in Grand county - Monday. And we'll remove Daggett. So we will have:

Carbon
Duchesne
Emery
Grand
Uintah
Wasatch

Okie dokie?

Okay, that explanation is sufficient to include just the 5 counties, then. I'll update the footnote where we discuss the boundary of the Uinta Basin. Thanks for being more thorough than I. I'm not sure where I got the 7 counties now, it was a while ago, but elsewhere we cite the memo you discuss below, so we should stick with that. ☺

Claudia -

From the WRAP March 2009, "**Final Report - DEVELOPMENT OF 2012 OIL AND GAS EMISSIONS PROJECTIONS FOR THE UINTA BASIN**"
(http://www.wrapair.org/forums/ogwg/documents/2009-03_12_Projection_Emissions_Uinta_Basin_Technical_Memo_03-25.pdf)

ENVIRON International Corporation - wrapair.org

773 San Marin Drive, Suite 2115, Novato, CA 94998 415.899.0700 ENVIRON
International Corporation Final Report DEVELOPMENT OF 2012 OIL AND GAS
EMISSIONS PROJECTIONS

[Read more...](#)

....

The projections for 2012 have been conducted separately for 5 geographic groupings in the Uinta

Basin which are essentially the 5 counties of significant oil and gas activity:

1. Carbon County

2. Duchesne County

3. Emery County

4. Grand County

5. Uintah County

This represents the region where significant oil and gas exploration and production are occurring,

and projections are made for each of these counties separately. However, it should be noted that

the boundaries of the Uinta Basin as defined in this project also include Wasatch County in the

northwestern corner of the basin. Wasatch County does not have any significant oil and gas

activity and thus no projections are made for this county, nor is Wasatch County included in any

further analysis for the Uinta Basin.

SO - we want these six counties:

Carbon, Duchesne, Emery, Grand, Uintah and Wasatch ... correct?

Not sure where 7 counties comes from _ I don't see Utah county mentioned.

Let me know - sorry about this. I was in too much of a hurry.

Subject: U&O FIP: Uinta Basin Counties

Hey, Cindy,

I hate to ask Travis to revise the table in the TSD yet again, but the WRAP defines the Uinta Basin as including 7 counties, not 5, so not just adding Emery, but also Grand, and Utah Counties. WRAP's definition also does NOT include Daggett County.

Thanks,

Claudia
